OBJECTIVE

To be able to work in a career oriented and challenging environment that promotes personal growth, and uplifts professional development.

PROFILE

I am an enthusiastic and flexible IT graduate with a solid background in web development and a passion for acquiring new skills. While I thrive on being versatile in the computer industry, my strength lies in quickly acquiring and applying diverse talents to meet project requirements. I am eager to contribute to a dynamic team where I can continue learning and growing, leveraging my broad skill set to add value in various entry-level positions.

PROFESSIONAL EXPERIENCE

Web Developer Intern - AORBTS Non-Voices Outsourcing Services
08/2023 – 12/2023
Cagayan de Oro, Philippines

- Gained foundational knowledge of HubSpot Workflow and embedded forms into websites.
- Developed a company WordPress website, researched and implemented necessary plugins, and utilized Elementor for UI Design.
- Created a real estate website using Elementor and conducted plugin research to establish a payment method.
- Assisted in keyword research and link building for product marketing and SEO Optimization.

Project Management Intern - Symph
07/2024 – 10/2024
Philippines

- Ensured product quality through thorough review and validation processes.
- Conducted hands-on testing of software to identify defects and areas for improvement.
- Facilitated clear communication between project managers, developers, and QA to streamline project workflows.
- Utilized Jira to create, track, and manage tickets, ensuring timely task completion and project progress.
- Assisted in project planning, resource allocation, and deadline management, contributing to successful project execution.

EDUCATION

Bachelor of Science in Information Technology
2020 – 2024
Xavier University - Ateneo De Cagayan
Cagayan De Oro City, Philippines
3.31 / 4.0 GPA

PROJECTS

Capstone Project - Full Stack Developer
2023 – 2024

- Developed an e-commerce platform as the Lead Developer for the group.
- Utilized Laravel Breeze for authentication.
- Implemented Datatables for fast, interactive table functionality with search capabilities.

- Integrated the PayMongo API to create a seamless payment gateway for online payments, including GCash, credit card/debit card transactions, and transaction refunds.
- Utilized Tawk.to for chat communication to enhance customer interaction and support.

Service Learning Program - Front End Developer 2022 – 2023
- Contributed to the development of a document tracker system's design and created styles for each page, including the login/logout page and all subsequent pages, using plain CSS.
